

## **Scope of Work: Parking lot/full facility blacktop sealing**

502 Maple Ave, Johnstown PA

**Clean-up and Prep** - All gravel, debris, etc. will be removed before the application of the sealcoat.

**Crack Filling (Hot Crack Filler)**- All major cracks will be cleaned out and then filled with hot rubber crackfiller

**Sealcoating (Commercial)** - Once prepped, the parking lot will get (2 Coats) of Sealmaster - PMLP Sealer that is mixed with Diamond Shield Fortifier (or provide an equal to/or higher performing product) and Sand to help add longevity to the life of the asphalt.

**Line Striping** - The preexisting layout and color will be repainted once all areas have been sealed and dried.
